

# Formal Park

CREATED WITH CARE BY

**SKANSKA**

**Situated between Mindenhurst Road and Deepcut Bridge Road, the Formal Park is in a prominent location.**

It will be a shared community space of 1.3 hectares for the existing residents of Deepcut and the new community at Mindenhurst. It will include the existing St Barbara's cemetery and car park, as well as a new park to the north.

The landscape design applies materials and plant species that are appropriate for the site's context in a park setting within a communal centre.

Tree species have been chosen to complement the existing species selection, which is consistent with a parkland style landscape, such as Red Oak and Larch.
